

CESARINE - COOKING CLASS

Step into the heart of Italian cuisine with a private cooking class in your villa. Guided by your Cesarina, a passionate local cook, you and your loved ones can choose between two delightful options:

With the **first option**, you'll uncover the secrets behind **three authentic regional recipes** — an appetiser, a fresh pasta dish, and a dessert — each one reflecting the flavours, stories, and traditions of the region you're visiting.

Every participant will have their own workstation, equipped with seasonal, locally sourced ingredients and traditional tools, to enjoy an authentic experience that celebrates the all-Italian art of cooking together.

In the **second option**, you and your family will learn how to make **two types of traditional pasta** and Italy's most beloved dessert — the iconic **Tiramisù**.

Each family member will have their own space, with utensils and ingredients designed for both adults and young chefs.

The children will have fun kneading, shaping and decorating their creations, while the parents refine their skills in handmade pasta and learn regional recipes from the expert hands of the Cesarina.

Under the warm and attentive guidance of your Cesarina, you'll discover techniques passed down through generations and create dishes that embody the essence of the Slow Food philosophy, where time, quality, and sustainability hold deep meaning.

At the end of the preparation, you'll gather around the table to enjoy your creations, accompanied by local wines, water, and coffee. Cooking, sharing, and tasting alongside your host, you'll discover Italy through its flavours — an intimate and authentic journey far from the usual tourist paths.
