

BOAT TOUR AND WINE IN BOLSENA

Discover the magic of Lake Bolsena with an unforgettable experience that blends nature, history, and authentic local flavours.

Step aboard for a fascinating boat tour across the crystal-clear waters of Europe’s largest volcanic lake. Nestled within the vast crater of an ancient volcano, Lake Bolsena is home to two enchanting islands — Martana and Bisentina — born from ancient eruptions and shrouded in centuries of legend. As you glide over its calm surface, you’ll admire the beautiful Renaissance church on Bisentina Island, once the summer residence of Pope Farnese, and enjoy breathtaking views of the lakeside villages of Bolsena, Marta, and Capodimonte.

After the boat tour, the experience continues on land with an exclusive Wine Tasting.

Taste three glasses of local wines paired with a rich selection of traditional products: artisanal cured meats (prosciutto, salami, and “mortazza” made from Mangalica pork), Fagioli del Purgatorio, bruschetta with local olive oil, and two cheeses from the farm, served with their own honey.

The experience also includes a guided visit to the winery, where you’ll immerse yourself in the aromas, traditions, and passion behind these unique products. A journey between water and land, beauty and flavour — designed to give you the most authentic essence of this extraordinary region.

THE PRICE INCLUDES

Exclusive boat tour of approximately 2 hours, fuel and skipper, tasting of 3 local wines, selection of cured meats and traditional local products, guided winery tour

THE PRICE DOESN'T INCLUDE

Transfer to the winery, approximately 15–20 minutes by car.
