

SALT TASTING AND DINNER AT SUNSET

Experience the magic of Marsala at sunset with a journey through its famous salt pans, where nature, tradition, and unique flavours come together.

A captivating experience made even more magical by the shimmering colors of the salt pans, the natural beauty of the Stagnone Nature Reserve, and the guidance of our expert guides.

Along the itinerary, you will learn about the full lifecycle and management of a salt pan, its production capacity, and the timing and rhythm of salt harvesting. Not all salts are the same: flavours vary, and so do their uses.

This experience allows you to discover all our hand-harvested salts, unique in taste and characteristics. Under the guidance of our expert selmelier, you will explore the different types of salt, from whole salts to fior di sale, and learn how they differ from salts produced in other parts of the world.

The experience concludes with a light dinner at sunset, surrounded by the enchanting atmosphere of the salt pans.
