

E-BIKE TOUR AND LUNCH IN THE LUCCA HILLS

Discover the true soul of Tuscany with an e-bike tour through the enchanting hills of Lucca, an experience that blends wonder and adventure.

The assistance of the e-bike allows you to pedal effortlessly, giving you the freedom to fully admire postcard-perfect landscapes: rows of vineyards tracing the curves of the hills, silvery olive groves swaying in the wind, quiet roads lined with elegant cypress trees.

Those with no e-bike experience need not worry: before starting, the guide will take a few minutes to show you how to use the e-bike safely, so you can enjoy the tour with peace of mind and take in every detail of the journey.

The route winds through charming villages where time seems to stand still and panoramic viewpoints that invite you to breathe in the pristine beauty of the Lucchese countryside. Every turn brings a new emotion, and every climb becomes a pleasure thanks to the electric assistance that transforms effort into pure enjoyment.

The highlight of the experience comes with the final tasting: locally produced wines and a lunch featuring genuine traditional Tuscan dishes will take you on a true sensory journey.

This tour is more than a simple excursion: it is an invitation to slow down, to experience nature intensely, and to let yourself be enveloped by the authenticity of the magnificent Lucchese countryside.
