

SOAP WORKSHOP UMBRIA AND TUSCANY

Discover the art of natural soap-making in the enchanting setting of the Italian countryside, on the border between Umbria and Tuscany. During this workshop, you will use locally produced olive oil and natural ingredients to create gentle, fragrant soaps that respect both skin and the environment.

Guided step by step by an expert artisan, you will learn an ancient Italian tradition rooted in simplicity and sustainability.

Flowers and natural essences will enrich your creations, making each piece unique and personal. The experience invites you to reconnect with slower, more mindful rhythms of life.

The scents of natural ingredients and the knowledge of the artisan will accompany every stage of the process. At the end, you will take home the soap you have crafted yourself - a true expression of Italian tradition, nature, and creativity.

THE PRICE INCLUDES
