

TRUFFLE HUNTING IN ORVIETO

Accompanied by an expert truffle hunter and his inseparable dog, you will experience firsthand one of the oldest and most fascinating activities of the Umbrian territory: truffle hunting.

The experience begins at the winery, from where you will set off on a pleasant walk through the vineyards, crossing the landscape that defines the winery's production area, until you reach the forest.

Here, immersed in an unspoiled natural environment, you will follow the dog's infallible sense of smell and observe the different stages of truffle hunting, learning about techniques, seasonality, and curiosities related to this precious gift of the earth. Along the way, the hunter will share stories and traditions that connect the world of truffles with that of wine, offering an authentic insight into local culture.

Once the hunt is over, you will return to the winery for a short visit to the heart of the production area, where the wines rest and mature, gaining a deeper understanding of the work behind each bottle.

This will be followed by lunch: the chef will prepare a three-course menu—appetizer, first course, and dessert—using the truffles collected during the experience, enhanced by carefully selected pairings with three wines from the winery, chosen to complement each dish.

A complete and engaging experience, designed for those who wish to enjoy Umbria in a genuine way, guided by authentic flavors, traditional stories, and the slow rhythm of nature.

THE PRICE INCLUDES
