

# LEONARDO DA VINCI & WINE AT A MEDICI VILLA

Discover the most authentic heart of Tuscany with a full-day experience that blends art, history and wine, in the iconic lands of Leonardo da Vinci and the Medici family.

The tour takes you to Vinci, a charming medieval town set among rolling hills and olive groves, and the birthplace of Leonardo da Vinci. A guided walking tour of the historic centre offers insight into the life and genius of the great master,

visiting key sites linked to his early years. Highlights include the exterior of the former fortress, the reproduction of the Vitruvian Man, and the church where Leonardo was baptised, home to the original baptismal font.

The experience continues at a historic Medici villa, once used as a hunting residence and now an elegant winery surrounded by the Tuscan countryside.

During the visit, guests explore the ancient underground wine cellar and learn about the estate's long-standing winemaking tradition, today carried on by a noble family producing organic wines with a strong commitment to sustainability.

The tour concludes with a traditional Tuscan lunch paired with a guided tasting of the estate's wines.

Each label is named after a 19th-century Italian poet who once lived at the villa, adding a unique cultural dimension to the tasting. The experience also includes a tasting of the estate's exclusive dessert wine, for a refined and memorable finale.
