

## THE ETRUSCAN VOLTERRA & ORGANIC CHEESE FARM TOUR

Explore the enchanting Etruscan town of Volterra, known for its ancient city walls, Roman Theater archaeological site, and impressive Medieval and Renaissance palaces. Discover centuries of history and architecture as you walk through this fascinating town.

As part of the tour, visit a local workshop in Volterra to see the craftsmanship involved in creating alabaster artifacts. After some free time for shopping, head to a charming organic pecorino cheese farm in the countryside, with stunning views of the valley and Volterra.

At the cheese farm, you will meet the multi-generational producers from Giovanni's family, who started their cheese-making craft in Sardinia over 50 years ago and brought their expertise to Tuscany. Take a tour of the aging rooms where the cheeses mature, and end with a delicious lunch featuring at least six varieties of pecorino cheese, accompanied by local vegetables, breads, and meats.
