

SANGIOVESE MASTERCLASS

Immerse yourself in the world of this globally beloved and famous wine, starting from the vineyard where it is born, you will then explore the places of its production and uncover the secrets of aging that transform mere grape juice into an exceptional product.

Throughout this multisensory journey, you will be directly guided by one of the producers, giving you the exclusive opportunity to witness firsthand the creation process of this unique wine, straddling centuries-old traditions and cutting-edge winemaking techniques. Here, century-old barrels passed down through generations coexist with modern machinery, revealing a dynamic, living process full of energy, all set in the breathtaking scenery of Montepulciano, surrounded by green hills of vineyards and nestled villages. The experience culminates with a tasting in the heart of the winery, where, through four different glasses, you will explore the evolution of Sangiovese over its long history, savoring the fruit of this incredible process, guided in this discovery by the experienced winemaker.

DURATION: 2H

THE PRICE INCLUDES: Tasting of 4 wines, Tour of the winery, walk in the vineyard (if the weather is good)

MEETING POINT: La Combarbia
