

# RUINS, DONKEYS & APERITIF NEAR ARZACHENA

Discover one of the island's oldest inhabitants and its deep connection to this land: the Sardinian donkey. Your journey begins with an introduction to these gentle animals, learning how to lead—without riding—them. Once comfortable, you'll set off together into the heart of Gallura, following a scenic route that blends dirt paths and paved roads. Along the way, you'll pass by the Nuragic village La Prisgiona and the Tomb of the Giants of Coddue Ecchiiu, both nestled in the Capichera region. Guided by professional donkey handler, the walk is structured into different moments, starting from the donkey farm. If you wish to pause and explore the ancient Nuragic ruins, your donkey will patiently wait, grazing in the surrounding greenery. The return follows the same route in reverse. Back at the farm, a delicious tasting of traditional Gallura products will be waiting for you—a perfect way to end this unique experience.
