

LITTLE FARMERS FOR A DAY: A LUNCH IN SIENA COUNTRYSIDE

Imagine a day immersed in the Tuscan countryside, where children – and adults too – can explore a real farm and discover the world of farm animals.

The day begins with a tour of the farm Podere Pociano, where children can visit the fields of the estate before moving on to a nearby educational farm, where they will meet chickens and goats, rabbits, geese, chicks, donkeys, ponies, horses, and even a cow.

At the end of the tour, children and parents will return to the estate, where they will find a nice Tuscan lunch waiting for them, prepared using fresh local ingredients.

An educational adventure that stimulates curiosity and fosters respect for the environment, all while being surrounded by the beautiful Sienese countryside. An unmissable opportunity to give the little ones a day full of emotions and new discoveries!
